Cross-Border Services and Investment

Only juridical persons organized under Colombian law may supply subscription television services guaranteeing to subscribers the reception at no additional costs of those free to air Colombian national, regional and municipal television channels available in the authorized area of coverage. The transmission of regional and municipal channels will be subject to the technical capacity of the subscription television operator.

Suppliers of satellite subscription television only have the obligation of maintaining in its basic programming the transmission of the public interest channels of the State. Any domestic content quota imposed on a free to air channel subject to a rebroadcast requirement are applied to the rebroadcast channel respecting the original signal.

Description:

Subscription television not including satellite

The concessionaire of subscription television that transmits commercials different from those of origin, must comply with the minimum percentages of nationally produced programming required of suppliers of free-to-air national television services as described in the previous entry. Colombia interprets Article 16 of Acuerdo 014 de 1997 as not requiring subscription television suppliers to comply with minimum percentages of nationally produced programming when commercials are inserted into programming outside the territory of Colombia. Colombia will continue to apply this interpretation, subject to Article 11.6 (c).

There will be no restrictions on the number of subscription television concessions at the zonal, municipal and district level once the current concessions at those levels expire and in no case beyond 31 of October of 2011.
