Chapter Seven

Technical Barriers to Trade

Objectives

The objectives of this Chapter are to increase and facilitate trade through the improvement of the implementation of the TBT Agreement, the elimination of unnecessary technical barriers to trade, and the enhancement of bilateral cooperation.

Article 7.1: Affirmation of the TBT Agreement

Further to Article 1.3 (Relation to Other Agreements), the Parties affirm their existing rights and obligations with respect to each other under the TBT Agreement.

Article 7.2: Scope and Coverage

1. This Chapter applies to all standards, technical regulations, and conformity assessment procedures of central government bodies that may, directly or indirectly, affect trade in goods between the Parties.¹

2. Notwithstanding paragraph 1, this Chapter does not apply to:

(a) technical specifications prepared by governmental bodies for production or consumption requirements of such bodies; and

(b) sanitary and phytosanitary measures.

Article 7.3: International Standards

In determining whether an international standard, guide, or recommendation within the meaning of Articles 2 and 5, and Annex 3 of the TBT Agreement exists, each Party shall apply the principles set out in Decisions and Recommendations adopted by the Committee since 1 January 1995, G/TBT/1/Rev.8, 23 May 2002, Section IX (Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement) issued by the WTO Committee on Technical Barriers to Trade.

Article 7.4: Trade Facilitation

1. The Parties shall intensify their joint work in the field of standards, technical regulations, and conformity assessment procedures with a view to facilitating trade between the Parties. In

¹ For greater certainty, the Parties understand that any reference in this Chapter to a standard, technical regulation, or conformity assessment procedure includes those related to metrology.
particular, the Parties shall seek to identify trade facilitating initiatives regarding standards, technical regulations, and conformity assessment procedures that are appropriate for particular issues or sectors. Such initiatives may include cooperation on regulatory issues, such as convergence, alignment with international standards, reliance on a supplier’s declaration of conformity, and use of accreditation to qualify conformity assessment bodies.

2. On request of the other Party, a Party shall give favorable consideration to any sector-specific proposal the Party makes for further cooperation under this Chapter.

**Article 7.5: Conformity Assessment**

1. The Parties recognize that a broad range of mechanisms exists to facilitate the acceptance in a Party’s territory of the results of conformity assessment procedures conducted in the other Party’s territory. For example:
   
   (a) the importing Party may rely on a supplier’s declaration of conformity;
   
   (b) conformity assessment bodies located in the territory of the other Party may enter into voluntary arrangements to accept the results of each other’s assessment procedures;
   
   (c) a Party may agree with the other Party to accept the results of conformity assessment procedures that bodies located in the other Party’s territory conduct with respect to specific technical regulations;
   
   (d) a Party may adopt accreditation procedures for qualifying conformity assessment bodies located in the territory of the other Party;
   
   (e) a Party may designate conformity assessment bodies located in the territory of the other Party; and
   
   (f) a Party may recognize the results of conformity assessment procedures conducted in the territory of the other Party.

The Parties shall intensify their exchange of information on these and other similar mechanisms.

2. Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain its reasons.

3. Each Party shall accredit, approve, license, or otherwise recognize conformity assessment bodies in the territories of the other Parties on terms no less favorable than those it accords to conformity assessment bodies in its territory. Where a Party accredits, approves, licenses, or otherwise recognizes a body assessing conformity with a specific technical regulation or standard in its territory and refuses to accredit, approve, license, or otherwise recognize a body assessing
conformity with that technical regulation or standard in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.

4. Where a Party declines a request from the other Party to engage in negotiations or conclude an agreement on facilitating recognition in its territory of the results of conformity assessment procedures conducted by bodies in the other Party’s territory, it shall, on request of the other Party, explain the reasons for its decision.

Article 7.6: Technical Regulations

1. Where a Party provides that foreign technical regulations may be accepted as equivalent to a specific technical regulation of its own, and the Party does not accept a technical regulation of the other Party as equivalent to that technical regulation, it shall, at the request of the other Party, explain the reasons for its decision.

2. Where a Party does not provide that foreign technical regulations may be accepted as equivalent to its own, it may, at the request of the other Party, explain its reasons for not accepting the other Party’s technical regulations as equivalent.

Article 7.7: Transparency

1. Each Party shall allow persons of the other Party to participate in the development of its standards, technical regulations, and conformity assessment procedures. Each Party shall permit persons of the other Party to participate in the development of such measures on terms no less favorable than those accorded to its own persons.

2. Each Party shall recommend that non-governmental standardizing bodies in its territory observe paragraph 1.

3. In order to enhance the opportunity for persons to provide meaningful comments on proposed technical regulations and conformity assessment procedures, a Party publishing a notice under Article 2.9 or 5.6 of the TBT Agreement shall:

Each Party should allow at least 60 days after it transmits a proposal under subparagraph (b) for persons and the other Party to make comments in writing on the proposal.

4. Each Party shall publish or otherwise make available to the public, in print or electronically, its responses to significant comments it receives from persons or the other Party
under paragraph 3 no later than the date it publishes the final technical regulation or conformity assessment procedure.

5. Where a Party makes a notification under Article 2.10 or 5.7 of the TBT Agreement, it shall at the same time transmit the notification electronically to the other Party through the inquiry points referenced in paragraph 3(b).

6. Each Party shall, on request of the other Party, provide information regarding the objective of, and rationale for, a standard, technical regulation, or conformity assessment procedure that the Party has adopted or is proposing to adopt.

7. Where a Party detains at a port of entry a good originating in the territory of the other Party due to a perceived failure to comply with a technical regulation, it shall immediately notify the importer of the reasons for the detention.
