A license issued by the United States Nuclear Regulatory Commission is also required for nuclear “utilization and production facilities,” for use in medical therapy, or for research and development activities. **Measures:** *Export Trading Company Act of 1982*, 15 U.S.C. §§ 4011-4021  
15 C.F.R. Part 325

**Description:** Cross-Border Services

Title III of the *Export Trading Company Act of 1982* authorizes the Secretary of Commerce to issue “certificates of review” with respect to export conduct. The Act provides for the issuance of a certificate of review where the Secretary determines, and the Attorney General concurs, that the export conduct specified in an application will not have the anticompetitive effects proscribed by the Act. A certificate of review limits the liability under federal and state antitrust laws in engaging in the export conduct certified.

Only a “person” as defined by the Act can apply for a certificate of review. “Person” means “an individual who is a resident of the United States; a partnership that is created under and exists pursuant to the laws of any State or of the United States; a State or local government entity; a corporation, whether organized as a profit or nonprofit corporation, that is created under and exists pursuant to the laws of any State or of the United States; or any association or combination, by contract or other arrangement, between such persons.”

A foreign national or enterprise may receive the protection provided by a certificate of review by becoming a “member” of a qualified applicant. The regulations define “member” to mean “an entity (U.S. or foreign) that is seeking protection under the certificate with the applicant. A member may be a partner in a partnership or a joint venture; a shareholder of a corporation; or a participant in an association, cooperative, or other form of profit or nonprofit organization or relationship, by contract or other arrangement.”

*Export Administration Regulations, 15 C.F.R. Parts 730 - 774*

**Description:** Cross-Border Services

With some limited exceptions, exports and re-exports of commodities, software, and technology subject to the Export Administration Regulations require a license from the Bureau of Industry and Security, U.S. Department of Commerce (BIS). Certain activities of U.S. persons, wherever located, also require a license from BIS. An application for a license must be made by a person in the United States.

In addition, release of controlled technology to a foreign national in the United States is deemed to be an export to the home country of the foreign national and requires the same written authorization from BIS as an export from the territory of the United States.

10 U.S.C. § 7435

**Description:** Investment

Under the Mineral Lands Leasing Act of 1920, aliens and foreign corporations may not acquire rights-of-way for oil or gas pipelines, or pipelines carrying products refined from oil and gas, across on-shore federal lands or acquire leases or interests in certain minerals on on-shore federal lands, such as coal or oil. Non-U.S. citizens may own a 100 percent interest in a domestic corporation that acquires a right-of-way for oil or gas pipelines across on-shore federal lands, or that acquires a lease to develop mineral resources on on-shore federal lands, unless the foreign investor's home country denies similar or like privileges for the mineral or access in question to U.S. citizens or corporations, as compared with the privileges it accords to its own citizens or corporations or to the citizens or corporations of other countries (30 U.S.C. §§ 181, 185(a)).

Nationalization is not considered to be denial of similar or like privileges.

Foreign citizens, or corporations controlled by them, are restricted from obtaining access to federal leases on Naval Petroleum Reserves if the laws, customs, or regulations of their country deny the privilege of leasing public lands to citizens or corporations of the United States (10 U.S.C. § 7435).
