**ARTICLE 17.4: GENERAL PRINCIPLES**

*Use of Electronic Means*

1. When conducting covered procurement by electronic means, a procuring entity shall:
(a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and

(b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

Valuation

2. For greater certainty with regard to Article II of the GPA, in estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity shall include the estimated maximum total value of the procurement over its entire duration, whether awarded to one or more suppliers, taking into account all forms of remuneration, including premiums, fees, commissions, interest, and other revenue streams that may be provided for in such procurements.

ARTICLE 17.5: CONDITIONS FOR PARTICIPATION

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal, commercial, technical, and financial abilities to undertake the relevant procurement.

2. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

   (a) shall evaluate the financial, commercial, and technical abilities of a supplier on the basis of that supplier's business activities outside the territory of the Party of the procuring entity, as well as its business activities, if any, inside the territory of the Party of the procuring entity;

   (b) shall not impose the condition that, in order for a supplier to participate in a procurement, including the award of a contract, the supplier has previously been awarded one or more contracts by a procuring entity of that Party or that the supplier has prior work experience in the territory of that Party; and

   (c) shall base its determination of whether a supplier has satisfied the conditions for participation solely on the conditions that the procuring entity has specified in advance in notices or tender documentation.
3. A procuring entity may exclude a supplier on grounds such as:
   
   (a) bankruptcy;
   
   (b) false declarations;
   
   (c) significant or repeated deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;

   (e) failure to pay taxes.

**ARTICLE 17.6: PUBLICATION OF NOTICES**

*Notice of Intended Procurement*

1. For each covered procurement, except in the circumstances described in Article XV of the GPA, a procuring entity shall publish a notice of intended procurement in accordance with Article IX of the GPA, in the appropriate electronic medium.

*Notice of Planned Procurement*

2. Each Party shall encourage its procuring entities to publish, as early as possible in each fiscal year, a notice regarding their future procurement plans. The notice should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement and, to the extent possible, be published in an electronic medium listed in each Party’s Appendix to the GPA.

**ARTICLE 17.7: TECHNICAL SPECIFICATIONS**

For greater certainty, a Party, including its procuring entities, may, in accordance with Article VI of the GPA, prepare, adopt, or apply technical specifications to promote the conservation of natural resources or protect the environment.

**ARTICLE 17.8: TIME-PERIODS**

*General*

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

   (a) the nature and complexity of the procurement;

   (b) the extent of subcontracting anticipated; and
(c) the time for transmitting tenders from foreign as well as domestic points where electronic means are not used.

Such time-periods, including any extension of the time-periods, shall be common for all interested or participating suppliers.

**Deadlines**

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4 and 5, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

   (a) in the case of open tendering, the notice of intended procurement is published; or

   (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering set out in paragraph 3 to not less than 10 days where:

   (a) the procuring entity published a notice of planned procurement under Article IX:7 of the GPA at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:

       (i) a description of the procurement;

       (ii) the approximate final dates for the submission of tenders or requests for participation;

       (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;

       (iv) the address from which documents relating to the procurement may be obtained; and

       (v) as much of the information that is required under Article IX:6 of the GPA for the notice of intended procurement, as is available;
(b) the procuring entity, for procurements of a recurring nature, indicates in an initial notice of intended procurement that subsequent notices will provide time periods for tendering based on this paragraph; or

(c) a state of urgency duly substantiated by the procuring entity renders such time-period impracticable.

5. A procuring entity may reduce the time-period for tendering set out in paragraph 3 by five days for each one of the following circumstances:

(a) the notice of intended procurement is published by electronic means;

(b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and

(c) the tenders can be received by electronic means by the procuring entity.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering set out in paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Notwithstanding any other time-period in this Article, where a procuring entity purchases commercial goods or services, it may reduce the time-period for tendering set out in paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. Where the entity also accepts tenders for commercial goods and services by electronic means, it may reduce the time period set out in paragraph 3 to not less than 10 days.

ARTICLE 17.9: MODIFICATIONS AND RECTIFICATIONS TO COVERAGE

1. A Party shall notify the other Party of any proposed rectification, transfer of an entity from one Annex to another, withdrawal of an entity, or other modification (referred to generally in this Article as "modification") of the Annex. The Party proposing the modification ("modifying Party") shall include in the notification:

(a) for any proposed withdrawal of an entity from Annex 17-A in the exercise of its rights on the grounds that government control or influence over it has been effectively eliminated, evidence that such government control or influence has been effectively eliminated; or

(b) for any other proposed modification, information as to the likely consequences of the change for the mutually agreed coverage provided in the Agreement.

2. Where the other Party objects to the proposed modification, it shall submit its objection within 30 days of notice of the proposed modification and include the reasons for its objection.
3. The Parties shall seek to resolve any objection through consultations. In such consultations, the Parties shall consider the proposed modification and, in the case of a notification under paragraph 1(b), any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in the Chapter prior to such notification.

4. In the event of a modification pursuant to paragraph 1(b), the modifying Party shall propose to the other Party appropriate compensatory adjustments, where such adjustments are necessary to maintain a level of coverage comparable to that existing prior to the modification. Such modification shall become effective if the other Party does not notify the modifying Party of any objection to the proposed modification within 30 days of the notification. A Party need not provide compensatory adjustments where the Parties agree that the proposed modification covers a procuring entity over which a Party has effectively eliminated its control or influence.

5. The Joint Committee established under Chapter 22 shall adopt any proposed modification only where the other Party:
   (a) does not object in writing to the proposed modification within 30 days of the notification provided under paragraph 1; or
   (b) submits to the modifying Party a written notice withdrawing the objection

**ARTICLE 17.10: GOVERNMENT PROCUREMENT WORKING GROUP**

1. The Parties shall establish a Working Group on Government Procurement (hereinafter referred to as “Working Group”), comprised of representatives of the Parties.

2. The Working Group shall meet, as mutually agreed or upon request of a Party, to:
   (a) consider issues regarding government procurement that are referred to it by a Party, including issues related to information technology; and
   (b) exchange information relating to the government procurement opportunities in each Party.
