

APPENDIX 1 TO ANNEX I

PRODUCT SPECIFIC RULES

Interpretative Notes

1. The product specific rules of origin (PSRs) set out in this Appendix are based on HS 2017. The first column of the list contains chapters, headings or sub-headings and the second column sets out a description of the product. For each entry in the first two columns, one or two rules are specified in columns 3 and 4. If the HS code in column 1 is preceded by an “ex”, the rules in column 3 or 4 apply only to the part of that chapter, heading or sub-heading described in column 2. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, either one may be applied. If no origin rule is specified in column 4, the rule set out in column 3 shall be applied.
2. The PSR may be fulfilled by operations in more than one company within a Party, if these operations, taken together, fulfil the requirements of Annex I (Rules of Origin and Mutual Administrative Cooperation in Customs Matters).
3. A PSR of origin set out in this Appendix represents the minimum amount of working or processing required to be carried out on non-originating materials for the final product to achieve originating status. A greater amount of working or processing than that required by the rule shall also confer originating status.
4. If a PSR in the list specifies that a product may be manufactured from more than one material, any one or more materials may be used. It does not require that all be used.
5. If a PSR in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials in addition.
6. If a PSR excludes materials classified in certain chapters, headings, or sub-headings, such materials must be originating for the goods/products to qualify as originating.
7. If a product, which has acquired originating status by fulfilling the conditions set out in the list, is used as material in the manufacture of another product, the conditions applicable to the final product do not apply to that material. No account shall be taken of the non-originating components of that material.
8. “Manufacture from materials of any heading” means materials of any heading, even materials of the same description and heading as the final product may be used, subject to any specific limitations which may also be contained in the rule. However, the processing must go beyond to what is provided for in Article 5 (Minimal Operations) of Annex I (Rules of Origin and Mutual Administrative Cooperation in Customs Matters).
9. A product mentioned in the list is not automatically covered by the Agreement. Other parts of the Agreement, e.g. exclusion lists and dismantling lists, must be

consulted in order to come to the conclusion whether preferential access may be granted to a given product imported from a Party.

10. Fish, crustaceans, molluscs, and other aquatic invertebrates shall be deemed originating even if they were cultivated from non-originating fry or larvae. Fry means immature fish at a post-larval stage and includes fingerlings, parr, smolts, and elvers.

11. Agricultural and horticultural products (Chapter 6 to 14 of the HS) grown in the territory of a Party, shall be treated as originating in the territory of that Party even if grown from seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants imported from a non-party.
