

## ANNEX II.4 SPECIFIC RULES OF ORIGIN

	in order for the manufactured products to obtain originating status
HS	Specific Rule of Origin
0401.10	Manufacture in which all the materials of Chapter 4 used are wholly obtained
)401.20	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0401.30	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0402.10	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0402.21	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0402.29	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0403.10	Manufacture in which all the materials of Chapter 4 used are wholly obtained and all the fruit juice of heading 2009 (except that of pineapple, lime or grapefruit) used is originating.
0403.90	Manufacture in which all the materials of chapter 4 used are wholly obtained
0404.10	Manufacture in which all the materials of chapter 4 used are wholly obtained
0404.90	Manufacture in which all the materials of chapter 4 used are wholly obtained
0405.10	Manufacture in which all the materials of chapter 4 used are wholly obtained
0406.10	Manufacture in which all the materials of chapter 4 used are wholly obtained
0406.20	Manufacture in which all the materials of chapter 4 used are wholly obtained
)406.30	Manufacture in which all the materials of chapter 4 used are wholly obtained
)406.40	Manufacture in which all the materials of chapter 4 used are wholly obtained
0406.90	Manufacture in which all the materials of chapter 4 used are wholly obtained
0408.11	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0408.91	Manufacture in which all the materials of Chapter 4 used are wholly obtained
1302.13	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1507.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1507.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1508.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1508.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1511.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1511.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

1512.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1512.19	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1512.21	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1512.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1513.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1513.21	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1513.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1515.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1515.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1516.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1516.20	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1517.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1517.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1601.00	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1602.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1602.20	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

1602.50	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1702.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
1702.40	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2002.10	Manufacture in which all the materials used are wholly obtained
2002.90	Manufacture in which all the materials used are wholly obtained
2004.10	Manufacture in which all the materials used are wholly obtained
2004.90	Manufacture in which all the materials used are wholly obtained
2005.20	Manufacture in which all the materials used are wholly obtained
2005.40	Manufacture in which all the materials used are wholly obtained
2005.91	Manufacture in which all the materials used are wholly obtained
2005.99	Manufacture in which all the materials used are wholly obtained
2006.00	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2007.91	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2007.99	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2008.70	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2101.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2102.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2102.20	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2106.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2106.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2204.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

2204.21	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2204.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2207.10	Manufacture: - from materials of any heading, except heading 2207 or 2208, and - in which all the grapes or materials derived from grapes used are wholly obtained.
2207.20	Manufacture: - from materials of any heading, except heading 2207 or 2208, and - in which all the grapes or materials derived from grapes used are wholly obtained.
2208.30	Manufacture: - from materials of any heading, except heading 2207 or 2208, and - in which all the grapes or materials derived from grapes used are wholly obtained.
2208.60	Manufacture: - from materials of any heading, except heading 2207 or 2208, and - in which all the grapes or materials derived from grapes used are wholly obtained.
2208.70	Manufacture: - from materials of any heading, except heading 2207 or 2208, and - in which all the grapes or materials derived from grapes used are wholly obtained.
2309.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2523.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
2523.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Chapter 28	Manufacture from materials of any heading except that of the product, or manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product, and shall be obtained by a production that involves a molecular modification resulting from a substantial transformation and create a new chemical identity.
Chapter 29	Manufacture from materials of any heading except that of the product, or manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product, and shall be obtained by a production that involves a molecular modification resulting from a substantial transformation and create a new chemical identity.
3006.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
3808.50	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product
3808.91	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product
3808.92	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product
3808.93	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product
3808.99	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product

3904.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
4808.10	Manufacture from materials of any heading, except that of the product
4817.10	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4818.30	Manufacture from paper-making materials of Chapter 47
4819.10	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4819.20	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4819.30	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4820.20	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4820.40	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4820.90	Manufacture in which the value of all the non-originating materials used does not exceed 45% of the price of the product
4821.10	Manufacture from materials of any heading, except that of the product
4821.90	Manufacture from materials of any heading, except that of the product
4823.90	Manufacture from paper-making materials of Chapter 47
4911.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5102.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5105.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5111.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5111.19	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5111.20	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5111.30	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

5111.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5112.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5112.19	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5112.20	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5112.30	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5112.90	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5113.00	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5201.00	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5202.10	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5202.91	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5202.99	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5203.00	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.12	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.13	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.21	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

5205.22	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.23	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.32	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.33	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.42	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5205.43	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.12	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.13	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.22	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.23	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.32	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.33	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.42	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5206.43	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.12	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

5208.13	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.19	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.21	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.22	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.23	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.31	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.32	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.33	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.39	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.41	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.42	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.43	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.49	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.51	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5208.52	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.

5209.59	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.19	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.21	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.29	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.31	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.32	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.39	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.41	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.49	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.51	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5210.59	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
5211.11	Manufacture from materials of any heading except that of the product, and in which the value of all the non-originating materials used does not exceed 45% of the price of the product.
