Unless otherwise specified herein, the General Notes in each Party’s Schedule to this Section apply without exception to this Chapter, including to all sections of this Annex.

Schedule of Panama

1. This Chapter does not apply to:

   (a) Procurements made under the system of concessions granted by the State, other than public works concession contracts.

   (b) Procurement measures designed to promote micro, small, and medium enterprises, in accordance with the following:

      (i) For a period of up to five years after the entry into force of this Agreement, Panama may award its micro, small, and medium enterprises a price preference that shall not exceed ten percent;

      (ii) Further to Article 9.3, Panama shall notify the United States of any price preference program established in accordance with subparagraph (b);

      (iii) Any price preference shall be clearly described in the notice of intended procurement or notice inviting suppliers to participate in the procurement and relevant tender documentation;

      (iv) If, before the end of the five-year period established in subparagraph (a), Panama requests an extension of the period, the Parties shall consult to determine whether there is a need to extend the period during which price preference...
preferences may be applied, and if they agree that there is such a need, to
determine the terms and conditions of the extension; and

(v) If, following the entry into force of this Agreement, Panama proposes to
implement any procurement measure intended to provide an exclusive
right for its micro, small, and medium enterprises to provide a good or
service covered by this Chapter, Panama shall notify such proposal to the
United States and enter into consultations with the United States regarding
the need, and any terms and conditions, for such a measure. Panama may
implement the measure subject to such terms and conditions as the Parties
may agree.

(c) Procurements of agricultural products linked to agricultural development and
support and food aid programs.

(d) Procurements by one Panamanian entity of a good or service from another
Panamanian entity.

(e) Procurement of transportation services that form a part of, or are incidental to, a
procurement contract.

2. The term **micro, small, and medium enterprise** means a business that has 100 or fewer
employees and total annual sales of no more than US$2,500,000.

**Schedule of the United States**

1. This Chapter does not apply to set asides on behalf of small or minority businesses. Set-
asides include any form of preference, such as the exclusive right to provide a good or service
and price preferences.

2. This Chapter does not apply to the procurement of transportation services that form a part
of, or are incidental to, a procurement contract.

**Section I: Threshold Adjustment Formula**

1. In calculating the value of a contract for the purpose of ascertaining whether a
procurement is covered by this Chapter, a procuring entity shall include the maximum total
estimated value of the procurement over its entire duration, taking into account all options,
premiums, fees, commissions, interest, and other revenue streams, or other forms of
remuneration provided for in such contracts.

2. The thresholds in Sections A through D shall be adjusted at two-year intervals with each
adjustment taking effect on January 1, beginning on January 1, 2008.
3. The thresholds for goods and services for Sections A, B, and D entities, List B entities in Section C, and construction services for Sections A through C are conversions into U.S. dollars of the thresholds listed in the U.S. Appendix 1 to the World Trade Organization Agreement on Government Procurement, which are set out in Special Drawing Rights (SDRs) and listed below. Every two years, the United States shall calculate the adjustment of these thresholds, based on an average of the daily conversion rates of the U.S. dollar in terms of SDRs published by the IMF in its monthly “International Financial Statistics,” for the two-year period preceding October 1 or November 1 of the year before the adjusted thresholds are to take effect:

(a) 130,000 SDRs for goods and services for Section A entities;
(b) 355,000 SDRs for goods and services for Section B entities;
(c) 400,000 SDRs for goods and services for Section C, List B entities and the Section D entity; and
(d) 5 million SDRs for construction services.

4. With regard to the US$10,300,000 threshold for construction services in Section D, the United States shall calculate the U.S. dollar value for the threshold every two years, based on the U.S. inflation rate measured by the Producer Price Index for Finished Goods published by the U.S. Bureau of Labor Statistics, using the two-year period that ends on October 31 in the year prior to the adjustment taking effect, and using the following formula:

\[ T_0 \times (1 + \pi_i) = T_1 \]

\( T_0 \) = threshold value at base period;
\( \pi_i \) = accumulated U.S. inflation rate for the \( i^{th} \) two year-period; and
\( T_1 \) = new threshold value.

The US$12,000,000 threshold for construction services in Section D shall not be adjusted.

5. The United States shall notify Panama of the adjusted threshold values by December 15 of the year before the adjusted thresholds take effect.

**Section J: Transition Mechanisms**

Panama shall make best efforts to comply with the obligations listed in its Schedule to this Section during the two years following the date of entry into force of this Agreement. The Notes to Panama’s Schedule shall apply during this two-year period. Thereafter, Panama shall fully comply with the obligations listed in its Schedule to this Section.
