

SECTION C

PERU

1. The List of Commitments below indicates the economic activities committed by Peru pursuant to Article 114 of this Agreement, and, by means of reservations, the market access and national treatment limitations that apply to establishments and investors from the other Party in those sectors. The list is composed of the following elements:
 - (a) a first column indicating the sector or sub-sector in which the commitment is assumed by the Party, and the scope of liberalization to which the reservations apply; and
 - (b) a second column describing the applicable reservations and the obligation affected (Market Access - MA or National Treatment - NT). The MA and NT commitments are independent; therefore if MA is not committed in a subsector (remains "unbound"), this does not invalidate the NT commitment.

The sectors or sub-sectors which are not included in the following list are not committed.

2. In identifying individual sectors and sub-sectors:
 - (a) ISIC rev 3.1 means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 4, ISIC REV 3.1, 2002; and
 - (b) CPC means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, CPC prov, 1991.
3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 112 and 113 of this Agreement. Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to investors of the other Party.

4. In accordance with Article 107 paragraph 3 of this Agreement, the list below does not include measures concerning subsidies or grants granted by the Parties.
5. In accordance with Article 112 of this Agreement non-discriminatory requirements as regards the types of legal form of an establishment are not included in the list below.
6. The rights and obligations arising from this list of commitments shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

LIST OF INTERNATIONAL MARITIME TRANSPORT SERVICES

Where road, rail, inland waterways and related auxiliary services are not otherwise fully covered in this List, a multimodal transport operator (as defined in paragraph 3 below) shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations.

"Reasonable and non-discriminatory terms and conditions" means, for the purpose of multimodal transport operations and this additional commitment, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date.

DEFINITIONS

1. In the case of Peru, "cabotage" or "commercial water transportation in national traffic" is performed between Peruvian ports, in accordance with the provisions of Article 2 of the Legislative Decree 683 of 2001.
2. "Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of the other Party to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of supply. For greater certainty, this commitment does not grant rights to operate as maritime transport enterprise or national ship enterprise in Peru.

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;

- (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
- (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) the provision of business information by any means, including computerized information systems and electronic data interchange (subject to the provisions of the Section on Telecommunications);
- (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency; and
- (f) acting on behalf of the companies, organizing the call of the ship or taking over cargoes when required.

3. "Multimodal transport operators" means the person on whose behalf the bill of lading, multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

4. "Maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organized independently of the stevedoring or terminal operator companies. The activities covered include the organization and supervision of:
 - (a) the loading/discharging of cargo to/from a ship;

 - (b) the lashing/unlashing of cargo;

 - (c) the reception/delivery and safekeeping of cargoes before shipment or after discharge.

5. "Customs clearance services" (alternatively "customs house brokers services") means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.
6. "Container station and depot services" means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.
7. "Maritime agency services" means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:
 - (a) marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
 - (b) acting on behalf of the companies organizing the call of the ship or taking over cargoes when required.

8. "Freight forwarding services" means the activity consisting of organizing and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

NOTE 2

SPECIALISED AIRPORT SERVICES

For the purposes of this Agreement, "specialised airport services" shall be understood as the services supplied inside and outside the platform, by national or foreign airport services operators related to services directly provided to aircrafts or for air transport purposes, when specialized equipment or facilities are used for its provision.

The commitments assumed by Peru in "specialised airport services" are limited to the following sub-sectors:

- (a) Fuel Supply Services: fueling services for aircraft of national and international air operators at the airports in Peru.

- (b) Water, Beverages and Foods Supply Services (catering): attention to the aircraft of national and international air operators at the airports in Peru, regarding the supplying of food, water and beverages.
- (c) Cargo Storage Services: reception, handling, storage and delivery of cargo and mail transported by air domestic and international export and import through the air operators.
- (d) Ground Equipment Support Services at Platform: platform services provided with ground support equipment to national or international air operators at the airports in Peru, for the attention of aircraft, passengers, cargo and personnel. These services include aircraft cleaning services.
- (e) Cargo Terminal Services of the Air Operator of the Carrier: the cargo terminal of the carrier or the responsible for this, for receiving and delivering the goods duly appropriated to the consignee or his agent. It should perform the activities necessary to deliver the goods to the consignee or his representative. This service covers the period since the load is removed from the building of the airfield goods until delivery to the storage terminals for cargo and mail.
